

JOURNAL CLUB / RESEARCH SEMINAR

2007-2008

This seminar meets the 2nd Friday of each month at 9:00 A.M in Room 1055 of the Tidewater Building. Dr. Gina Manguno-Mire, Ph.D. is the course director. The aim of the seminar is to teach fellows how to critically appraise scientific articles with relevance to forensic psychiatry. For fellows interested in developing an independent research project, the seminar also serves as a forum for the creative discussion of ideas, theory, and methodology.
